Keeping In Touch . . . Impacting Lives

Contributions to the Alumni Association support Student Scholarships

In May 2012, 8 students within the School of Allied Health Professions received scholarships from the Alumni Association. The students were asked to write an essay discussing how they can contribute to the betterment of healthcare in Louisiana or their community. The Alumni Association Board was overwhelmed by the commitment our students have to their professional development and communities. The Alumni Board would like to continue offering scholarships to our students as a reflection of the Board's mission.

The student recipients would like to thank the Alumni Association for their support:

I know these scholarships would not be possible without your contributions. I want to thank you for your time and assistance in helping further my career.

Your generosity is greatly appreciated. You have given me a necessary tool to further my education.

Through the support offered by the Alumni Association, students are inspired to not only complete their education, but also to donate their time and effort to better the LSU community.

Salah Awadalla
Cardiovascular Sonography

Christine Bevroto
Speech Language Pathology

Kevin Duffy
Physical Therapy

Kimberly Rau
Occupational Therapy

Kayla Scott
Rehabilitation Counseling

Donnie Stewart
Respiratory Therapy

Kristina Thomas
Audiology

Cynthia Weatherly
Clinical Laboratory Sciences

*Alumni scholarships are made possible by a generous commitment
from alumni and friends of the School.*
