

Launch the App Store -> Search for the Junos Pulse app -> Download to your device and tap the Install button -> Agree to the EULA.

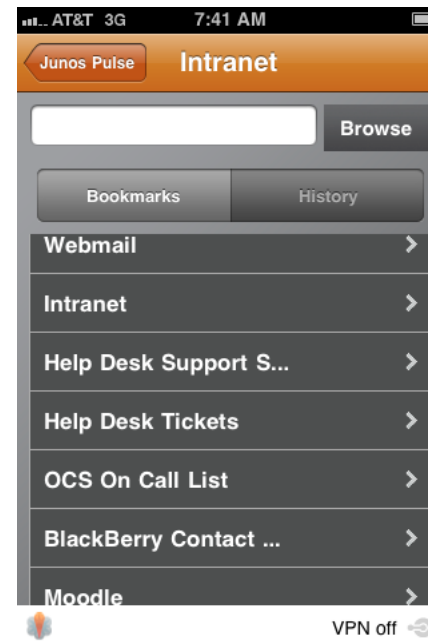

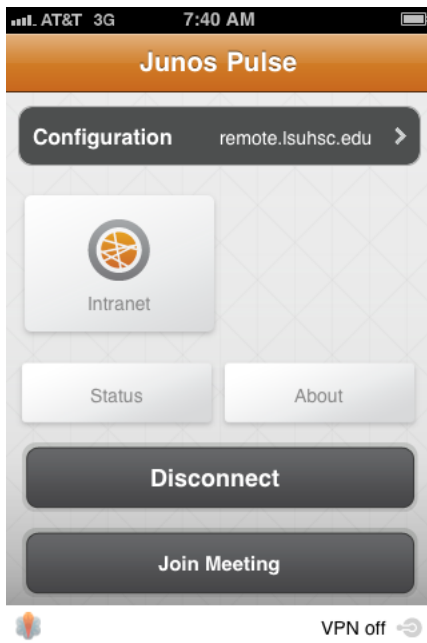

Click the “Enable” button and the Configuration screen will appear -> Click the “Configuration” button.

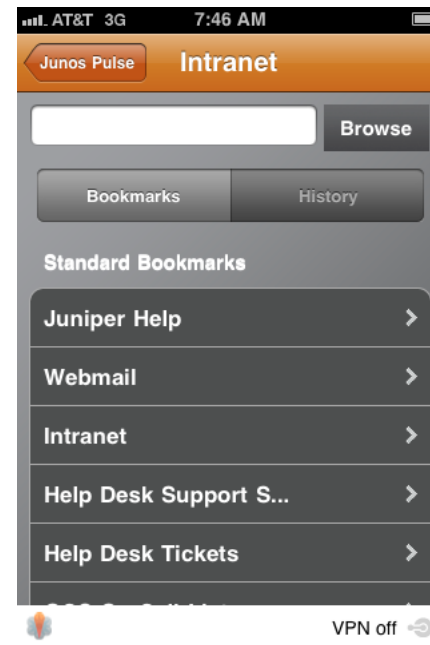

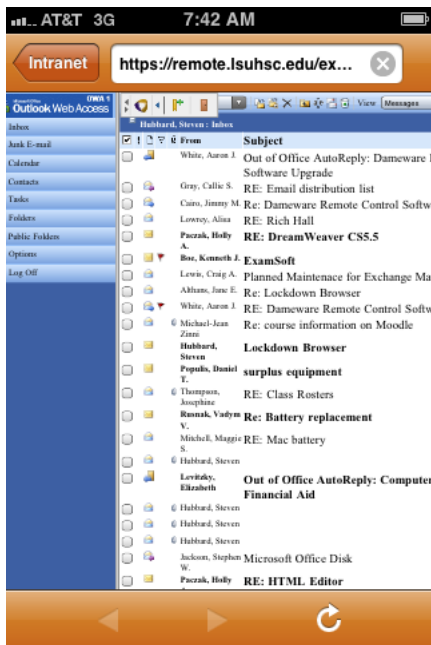

In the “Add” screen, enter “remote.lsuhscc.edu” for the URL -> Click the “Save” button. In the “Sign In” screen, enter your username & password -> Click the “Sign In” Button.

Click the “Intranet” button to view the list of applications that are available to, depending on whether you are faculty, staff, or a student. For the purpose of this demo, click “Webmail”.

To exit the application and return to full list, click on the “Intranet” button in the upper left-hand corner. From the app list, to exit Junos, click the “Junos Pulse” button in the upper left-hand corner.

Click the “Disconnect” button to leave Junos Pulse remote access.
