My course responsibilities include lecturing with application of content during class time. Classes discuss the materials with an interactive application of the procedure of

Revised: January 2021

Revised: August 2024

diagnostic post lecture. SPTHAUD 6207, 6211, and 6205 heavily involve the use and understanding of equipment, software, and procedures that are demonstrated with hands-on activities. SPTHAUD 7311 is a course with multiple lab sessions and is primarily a practicum course.

Undergraduate, Medical, or Graduate Student Research Projects:

2024: Sydney Imhoff & Taylor Stansberry Research Experience Project: “What is the difference in dBSPL between the stimulus level calculated by the iPhone Health Application and the dBSPL measured by Probe Microphone Measurements obtained via participants?”

2025: Emily Annaloro & Avery Vickers Research Experience Project: “What is the accuracy of hearing thresholds obtained via the self-conducted app via airpods versus standard testing parameters?”

RESEARCH AND SCHOLARSHIP

Major Area of Research Interest:

I am interested in Social Determinants of Learning; specifically, as to how they relate to a student’s competitiveness in admissions requirements and access to higher education. I am also interested in the effectiveness of technology as a recruiting tool particularly social media.

Social Media Advisor	2022-present
SLP/AUD Strategic Planning Committee; member	2022-present

State/Regional Service:

Member at Large; Professional Issues/Government Liaison <i>Louisiana Academy of Audiology</i>	2024- current
--	---------------

Revised: January 2021

Revised: August 2024

National Service:

State Policy Advocacy Network (SPAN) Committee Member 2024-current
American Academy of Audiology

Clinical Service:

As a clinical faculty member, I provide supervision for clinical education via our on-campus clinic and our rotation at the University Medical Center. When students are not on-campus, I continue to provide patient care as an independent provider at both locations. My clinical areas of expertise include adult diagnostics, hearing aid fitting, verification, and management, tinnitus therapy, and electrophysiology.

Clinical Coverage: 1.5 days at on-campus clinic at LSUHSC; .5 days/week at UMC

Membership in Professional Organizations:

Louisiana Academy of Audiology	2014-2017, 2022-present
Association of VA Audiologists	2017-2022
American Speech-Language-Hearing Association	2022-present
American Academy of Audiology	2023-present
Council of Academic Programs in Communication Science Disorder	2024-present

Administrative Responsibilities:**Departmental**

Admissions:

- Qualifying accounts
- Scheduling interviews with appropriate applicants
- Organizing day-of groups/schedule for interviewers/ees
- Maintain acceptance/waitlist

Events:

- Self Care Day
- White Coat Ceremony
- National Speech-Language-Hearing Month

Interdisciplinary/other program (center or program)

- **TEAM UP Course Instructor & Grader**

Compete grading assignments for all enrolled students

Maintain communication with CIPECP Director to ensure audiology students are attending and completing assignments and are within good academic standing within the TEAM UP course

Community Service Activities:

2024-Light House for the Blind: Rise and Shine Fundraiser

2025-Kids Zoo to Do

Continuing Education Courses Attended:

2012- present: Completion of continuing education to maintain state licensure without lapse for Louisiana (10 hours annually)

Revised: January 2021

Revised: August 2024

2022- present: Completion of continuing education to maintain certification with supervision and ethics requirements without lapse for ASHA (30 hours triennially)
