Assessing Therapeutic Progress via Telemental Health

Erin Dugan, Ph.D., LPC-S, Registered Play Therapist

This webinar will focus on methods to assess client's progress during telemental health times. Attendees will review current practices to assess progress during sessions as well as connect with caregivers to assess progress at home.

1. Attendees will review current practices and guidelines in the benefit of assessing progress in client's sessions.
2. Attendees will gain an understanding of how to incorporate caregivers in the process of assessing progress in their child's therapy.
3. Attendees will review current research practices in assessing progress in children's therapy.
