Recorded Seminar 2.0 CE \$30

### History of Play Therapy: A Review of Play Therapy Seminal Theories and Practice

Erin Dugan, Ph.D., LPC-S, Registered Play Therapist

#### Overview

Play therapy is an evidence-based modality used to facilitate children's growth and development. This webinar will discuss the benefits of utilizing play therapy as a therapeutic medium. Participants will identify key elements and factors differentiating play in therapy versus play therapy

#### Objectives:

1. Participants will describe the therapeutic modality, play therapy.
2. Participants will compare the use of play in therapy and play therapy.
3. Participants will explain the evidence-based practice of the use of play therapy.

LCA Content Areas: Counseling Theory, Human Growth & Development, Social & Cultural Foundations, the Helping Relationship, Appraisal of the Individual, Research & Evaluation, Professional Orientation
