Telehealth Supervision Activities: Engaging your Play Therapy Supervisee

Krystal Vaughn, Ph.D., LPC-S, Registered Play Therapist
Supervisor

This webinar will present attendees with an overview of how to incorporate activities in play therapy supervision when using a virtual platform. The webinar will review theoretical rationales for the use of play-based activities in play therapy supervision. Attendees will also gain awareness of how activities used in supervision may parallel the use of play therapy activities in session.

Objectives:

1. Attendees will describe their understanding of the activities available for play therapy supervision.
2. Attendees will discuss the theoretical rationales for the use of play-based activities in play therapy supervision.
3. Attendees will prepare to incorporate play therapy activities through a telehealth platform.
